

Good Afternoon Gentlemen,

I have good news to share with you that the retro payments for the BMW & BRS agreement employees have been processed and will be available on Friday, April 25th! As we had 60 days in which to pay this we were able to accomplish this payment 35 days early and hope that this will be a pleasant surprise to all.

May I ask for your help in getting this good news out to your members as soon as possible so they may be on the lookout for this payment. In addition we will provide a statement within the next 90 days so they will understand the retro payment. We will not be able to provide individual accounting to the employees via phone or email until these statements have been created.

One word of caution, total taxes on these retro 's could be as high as 60% (Federal, State, Tier 1, Tier 2 & Medicare). Also, they will see the medical co-share coming out of the payment.

Thank you for your help in relaying this exciting information and please do not hesitate to call or email me for any questions!
