Re: Physician contract approved

Dear Valued Member:

At UnitedHealthcare, we are committed to supporting your access to quality, affordable health care through a broad physician network. We are pleased to tell you that we are further strengthening this commitment with a successfully negotiated contract between UnitedHealthcare and Dr. Anil Achaen.

Dr. Anil Achaen will continue to be part of our national network of 676,000 physicians and 5,190 hospitals. This means any eligible services you receive from Dr. Anil Achaen will continue to be covered by your benefit plan at network levels.

If you have chosen an alternate network physician, you can continue receiving services from that physician. Or, if you'd like to return to Dr. Anil Achaen, please contact Dr. Anil Achaen to reestablish that relationship. All physicians in our network are rated by the UnitedHealth Premium[®] program according to quality and efficiency standards in certain specialties. To find out how your physician rates, please visit myuhc.com[®].

1. Go to **www.myuhc.com**.
2. Click on **Find Physician or Facility**.
3. Search by location, physician name or by quality and efficiency standards.

We thank you for your patience through this process, and regret any inconveniences that occurred. If you have any questions about the UnitedHealthcare physician network or your benefit plan, please call Customer Care at the telephone number printed on your health plan ID card.

Wishing you good health,

UnitedHealthcare
